THE GARFIELD MEMORIAL FAIR.

The Anthority Under Which the Committee is Acting—An Exten-sion Probably to Be Asked For. Considerable nofavorable comment coming THE CRITIC concerning the course pursue

to THE CRITIC concerning the course pursued by the committee in charge of the Garfield Memorial Expestituo to be held at the Capitol, we reproduce the authority under which the committee is acting. It appears that on the 5th of August the President pro tempore late before the Sense the following House concurrent resolution:

*Received, By the House of Representatives the Sense concurring that the use of the rounds and adjacent rooms be granted to the Garfield Memment Committee, Society of the Army of the Cumberland, from the 25th of November to the 5th of December, 1982, to held a bazar and reception, the object being to raise a fund to aid in the erection of a status of Washington to the memory of the late President Garfield. The resolution was concurred in -- Congressional Record (Senste), page 5,321.

curred in.—Congressional Record (Scales), page 6,016.

The grumblers claim that the committee had no right to enter in charge until the 25th instant, but this would give them no time for preparations. The fact is that the fair has grown to greater proportions than the either its projectors or Congress Contemplated, and therefore involves minor anneyances which cannot be avoided. It is understood that when Congress meets it will be asked to extend the time of the fair. Considerable expense has been gone to, and it is likely that it will not be a financial success unless such additional time is granted.

and Mr. Petit. This list above, with the laborers and architects, are all that should enter
the Rotunda. Members, Senators, and employes should be politely requested to pass
immediately through.

The Capitol police were a little slow in enforcing the above order, and the committee
this morning put citizens on duty who are in
charge of Mr. Sutton, ex-member of the Metropolitan police.

this morning put citizens on duty who are in charged Mr. Satton, ex-member of the Metropolitan police.

The Curtor reporter meeting Senator Beck in the Capitol this morning called his attention to the above order. After reading it very carefully he said: "It is an outrage. We never should have allowed them the use of the Capitol. This building should not be let out to any person or persons for any purpose whatever, it is wrong."

"But, Senator, it is generally understood that the committee will ask for further thins?"

"I am opposed to granting them a minute's, more time. They never should have been permitted the use of the building at all."

Both the restaurante at the Capitol will be open to visitors. The committee have made arrangements with both restaurants to receive forty per cent. of the receipts. The several cigar stands in the building agree to pay to the committee for the privilege of defing business during the fair twenty-live per cent. of their sales, An old Irish lady who runs a pie stand in the basement on the House side, preferring to close rather than give any part of her receipts to the fair, has moved out until it closes.

A Correction.

No matter how many come at the present time, however, or how far they have traveled, the Capitol is closed against them, and will be for some time to come, unless visitors choose to pay \$1 a head to a Garnel i fund.—Wash, Cer. A. P. Som.
